EXECUTIVE SUMMARY

Executive travel risk is assessed HIGH today due to access and movement constraints, not a verified threat to a named principal. The Chicago Marathon places approximately 55,000 runners on a multi-neighborhood course today; organizer-advised course street closures began at 6:00 a.m. and generally continue to 4:00 p.m., with some Grant Park and Roosevelt/Columbus restrictions lasting later. Six downtown hotels began strike action Friday, raising service-continuity concerns during peak visitor demand. An advertised 1:00 p.m. Ukrainian-cause gathering at the Wrigley Building area is unconfirmed by police for size or routing. ORD/MDW are shown on time in available FAA airport-wide status, while weather is favorable. [1-11]

WEATHER & OPERATIONAL IMPLICATIONS

Sunday: Sunny, high near **73 F**; light east-southeast wind near 5 mph. No significant weather impediment to race operations is forecast.

Monday: Mostly sunny, high near **85 F**; southwest gusts to 25 mph. Evaluate heat exposure for walking details and outdoor queues.

Tuesday: Sunny, high near **79 F**; shower risk increases Tuesday night. [1]

AIR TRAVEL & AIRPORT ACCESS

ORD: FAA airport status indicated **On Time** this morning. No airport-specific ground stop was identified on the cited FAA status page. [2]

MDW: FAA reported **On Time**. Command-center general delays were 15 minutes or less at the reviewed snapshot. [3]

Action: Confirm individual flights, terminals, access roads and chauffeur location 60-90 minutes prior; downtown closures may dominate transfer time.

PRIORITY MOVEMENT DECISIONS - SUNDAY

1. Avoid discretionary cross-course travel 6:00 a.m.-4:00 p.m.; do not enter police-controlled closures. **2.** Confirm protected pickup access at six strike-affected hotels before releasing principals. **3.** Prioritize a second vehicle approach, an alternate secure curb, and an independent route check before every downtown departure. [4-8]

Organizer lists **temporary two-way Clark St. (Lake-Adams), about 6 a.m.-noon** for Loop exits. Advertised access may change: check CPD/OEMC, the official closure table, CTA and live navigation before dispatch. [4-6]

PROTECTIVE INTELLIGENCE STAFF ASSESSMENT

ASSESSMENT

HIGH MOBILITY DISRUPTION / NO VERIFIED PRINCIPAL-SPECIFIC THREAT. Marathon barriers, hotel strikes and dense crowds are the leading exposure. The 1 p.m. Wrigley Building gathering is organizer-advertised, not police-verified. Recent robberies warrant disciplined vehicle transfers, not a finding of coordinated executive targeting. Base movements on live official closures. [4-11,15-19]

PRIORITY ACTIONS FOR PROTECTIVE TEAMS

#	RECOMMENDED ACTION
1	Pre-position beyond race barriers. Confirm site door, driver approach and CPD-authorized crossings before principal release. [4-6]
2	Verify hotel entrance, room service, valet, staffing and pickets; plan fallback access. [7-8]
3	Recheck Michigan/Wacker and bridges before afternoon movement; verify rally impact with OEMC/CPD. [10-11]
4	Short controlled transfers, attended parking and redundant comms; verify flight and airport approach. [2-3,15-17]

24-72 HOUR EXECUTIVE TRAVEL OUTLOOK

SUN 11 - HIGH: Marathon closures, hotel strike, 7 p.m. Olivia Rodrigo. **MON 12 - ELEVATED LOOP:** Dearborn parade from late morning, 7 p.m. concert, near 85 F and gusty. **TUE 13 - MODERATE:** Blackhawks-Penguins 7 p.m., sunny near 79 F; showers possible overnight. Monitor strike continuation. [1,4,7-8,12-14,20]

SOURCES, CLASSIFICATION & RELIABILITY

VERIFIED: official schedules/agencies. **REPORTED:** attributed news. **OSINT/UNCONFIRMED:** planned event, not actual turnout or restrictions. FAA is not flight-specific; no unverified Citizen/social alert treated as fact. Cutoff ~7 a.m. CDT.
